

# A Piano Proposition

It means money in your pocket and a free trip to Los Angeles.

To stimulate business during usually dull months, it pays us to sacrifice profits on pianos—which is the sole explanation for this liberal offer.

Any Arizona purchaser of a piano here during June, July or August will receive free the cost of railroad fare one way, and in addition, we will pay all delivery charges on the instrument selected, to the customer's nearest railroad point.

None but high grade instruments are sold by us—Steinway, Kränich & Bach, Emerson, Estey, Starr and others less expensive, though no less reliable in their class and we combine easy methods of buying with fair, fixed prices.

Notwithstanding the cost to us of conducting this campaign, we do not require all cash—a very small advance payment after giving simple evidence of your good faith and ability to pay the easy monthly sums required afterward, brings the piano you select to your home.

An offer worth taking advantage of, isn't it. Write today for catalogs and any information we can give you about the purchase of any of the high grades of pianos we represent.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure it, catarrh has become a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by P. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 4 to 8 pills daily. It acts directly on the blood and mucous surfaces of the system. They cure over one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

## NATIONAL IRRIGATION

Arizona Urged to be Well Represented at the Portland Congress.

The Republican yesterday received a communication from Mr. Dwight B. Heard, who is at San Diego in reference to the representation of Arizona at the National Irrigation congress to be held this year at Portland.

Mr. Heard encloses a quotation from a letter he has lately received from Mr. Tom Richardson, the secretary of the congress on the subject. Mr. Richardson said: "There is a great contest on now between California, Colorado and Utah as to which will send the greatest delegation. Colorado promises one special train of two hundred headed by the governor. Utah has arranged to bring a Mormon choir accompanied by a special train of delegates. Arizona had a magnificent delegation at El Paso—one of the strongest that ever attended the irrigation congress and I certainly hope they will come to see us in Portland as we are going to have the grandest gathering the western two-thirds of the United States ever saw."

In conclusion Mr. Heard writes: "I find there is a great deal of interest being shown in the Portland congress in California and I earnestly trust that the Republican will do everything possible to assist in getting a large delegation from our territory."
